INSTRUCTIONS:

1. Cut the long stem of the larger calla lily, leaving about 8 ½" from the base of the flower. Placing the base of the smaller lily about 1" below the base of the larger lily, tape the smaller flower to the larger one with floral tape.
2. Cut one stem off the ivy bush. Place it in front of the lilies, allowing the top ivy leaves to be at the base of the larger lily. Tape in place.
3. Cut one strand of the pearl trailer into three different size pieces (i.e. 3", 5", and 9"). Place the two shorter pieces in front of the ivy, and the longest piece in back of the lilies. Wrap with tape.
4. Cut one stem from the filler flower bush. Place it behind the lilies, allowing it to stick up above the larger lily about 1". Tape in place.
5. Cut a 1 ¾ yard piece from the tulle. Gather up one end of the tulle with your fingers and hold on to it (photo 1). Make about a 12" loop. Bending the tulle backward (photo 2), gather the tulle, adding it with the gathered end (photo 3). Make another larger loop, about 15". Gather and hold. Make two more loops, a 14" and a 12". Keeping tulle gathered, spread it out around the backside of the arrangement and tape in place (photo 4).
6. Tie one end of the remaining tulle around the arrangement at the top of the tape, having about a 3" tail on one end of tulle (photo 5). Place the 3" tail to the front of the arrangement. Wrap the long tail of the tulle tightly around the stem, going up and down the stem several times and ending on the top backside (photos 6 and 7). Twist the end of the tulle and glue to the backside (photo 8).

7. Glue one end of the pearls to the backside of the arrangement at the top of the wrap. Spiral wrap the pearls down the tulle. Glue at the bottom of the arrangement. Leave excess pearls hanging.
8. Glue the vase to the center of the mirror. Place the arrangement into the vase, allowing excess pearls to pool in the bottom.
