

*We believe in the power of recycling, especially when “power” means flower power! Save your plastic shopping bags, and watch your garden grow. You’ll be off to a great start with this cute little gardening apron.*

To make the plastic “fabric” follow the simple step-by-step instructions provided online. Then, simply follow *Simplicity pattern #3752* to construct the actual apron just as you would traditional fabric. Finish this eco-friendly apron with coordinating double-fold bias tape as a trim and add a sweet ribbon tie.
